

100% recyclable

VACUUM SKIN PACKAGING™ PET Tray

Vacuum Skin Packaging (VSP) trays are used to extend the shelf life of products by increasing protection of food from oxygen and water. The Clearly Clean solution offers a recyclable PET tray with superior performance characteristics. The VSP production process can be challenging, but Clearly Clean's tray will not be an issue because you can re-work it again and again.

CLARITY

Display your product in Clearly Clean's crystal clear PET trays. Make your product the STAR of the package.

EFFICIENCY

Clearly Clean PET trays can immediately replace all Styrofoam trays on high-speed packaging machinery — no need for an equipment change.

STRENGTH

Clearly Clean PET trays provide superior strength to Styrofoam and will not break during production or transportation.
